ML40 — Smart Wi-Fi Curtain Motor

Smart Wi-Fi Curtain Motor is a cutting-edge solution for automating your window treatments, designed to handle window sizes up to 6 meters wide. Easily integrated with your home network without the need for any gateway, it lets you control the opening and closing of your drapes remotely through an intuitive smartphone app. Whether you're at home or on the go, you can schedule, adjust, or automate your curtains with a simple tap. It's also compatible with voice assistants like Alexa and Google Assistant, allowing you to effortlessly command your curtains with just your voice. Quiet, energy-efficient, and secure, this motor adds both convenience and style to windows of various sizes, even up to an impressive 6 meters.
