

RF Remote Control

2 Channel / 6 Channel

Simple & Easy Controlling

RF (Radio Frequency) remote control offers seamless and reliable operation with a range of up to 30 meters. Using radio waves, it provides precise control without the need for direct line-of-sight, making it ideal for devices positioned out of view, this remote ensures smooth functionality, offering convenience and flexibility from a significant distance. The range allows for effortless operation from anywhere in the room or even across different areas within the home or workspace.
